The announcement was made during Anime Expo 2013. The story follows a young man named Shun as he begins to work at the leisure park "Happy Happy." With a large number of residents, this park provides the "Tension Release" promised by its owner, a rich man who is also an expert on stress-relieving methods. After two months of working at the park, Shun meets the beautiful and spirited young woman Rimi who works as the manager of the park. A company under Universal Pictures Entertainment is producing the adaptation of the manga. In addition to "Lucky Star," Kon wrote and drew several other manga and anime series, including "Perfect Blue," "Goranger," "Mushishi," "Millennium Actress" and "The Mystical Chronicle of God's New World."
